INTERIM PROSPECTUS

UTTAR PRADESH STATE INSTITUTE OF FORENSIC SCIENCE LUCKNOW

(Academic session 2024-25)

1. BIRTH OF UPSIFS, LUCKNOW:

The Uttar Pradesh State of Institute of Forensic Science (UPSIFS), Lucknow is a newly instituted educational institution and the flagship project of the Government of the Uttar Pradesh has commenced it's the First Academic Session (2023-24) was inaugurated by Hon. Chief Minister of Uttar Pradesh Shri Yogi Aditya Nath on 16.08.2023. The Institute with the objectives to build a world class educational institution for Forensic Science and Legal Studies has been registered under the Societies Registration Act-1860 (Act No. XXI of 1860) in 2022. At present UPSIFS is affiliated to the National Institute of Forensic Science (NFSU), Gandhinagar, Gujarat.

This Institute has been built with the vision of creating professional experts in the field of forensic science and law. It is also committed to build a world class research center and service provider in critical areas of DNA and other branches of forensics, cyber security and emerging technologies blend with legal knowledge for the larger benefit of the society and humanity.

2. MISSION OF THE INSTITUTE:

The mission of the institute is to provide multidisciplinary and exceptional forensic science and legal education to students, which includes scientific research, ethical practices, upholding truth and justice within the global criminal justice system. It also integrates industry needs to provide research-based solution in collaboration with other institutions in India and abroad.

3. VISION:

The vision of the Institute in brief is as under:

- (i) To create a pool of trained manpower in the fields of forensics and legal studies who can hold various positions in forensic laboratories all over the country.
- (ii) To inculcate the knowledge of science & technology, providing specially designed academic training programs in various fields of forensic science and emerging technologies and law, which includes both theoretical inputs and practical training to generate skilled expertise.
- (iii) To create capabilities for upgrading the infrastructure to global standards for education, training and research in the areas related to forensic science, cyber and other emerging technologies, criminology, applied behavioral science and law.
- (iv) To establish close linkages with various forensic science laboratories, Institutes, law enforcement authorities and Institutions to enable teaching, training, and research relevant in forensic science, security and policing and legal domain.
